

COLUMBUS CURRENTS

ATTENTION Junior and Senior High School Students

ONE WEEK YOU WILL NEVER FORGET!

If your immediate family member is an active member of Columbus Electric Cooperative, you will have a chance to win an all-expense paid trip to visit our Nation's Capital. (Total tour value is \$3,000.00)

- Visit historic sites in our nation's capital
- Meet our legislators
- Meet over 1,000 students from co-ops all across the U.S.

Applications are available at the Columbus Electric Deming Headquarters, Deming High School, Animas High School and online. **Deadline to apply is Friday, December 13, 2019**

November 2019 www.columbusco-op.org **Vol. 31. No. 11**

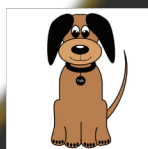

This institution is an equal opportunity provider and employer.

Stay Back & Stay Safe

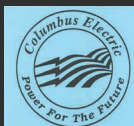

Working with electricity can be a dangerous job!

If you see police, firefighters, utility crews or other emergency personnel on the site of the road, please slow down and move over when possible.

Try to keep pets indoors while linemen are on or near your property. Our crews work best without a pet "supervising" the job.

You want to make sure only authorized workers are on or near your property. Our service trucks have our name and logo on them.

Please move over for emergency and utility crews.

Installation of New Meters Continues

Columbus Electric personnel will continue installing new meters at member locations served out of our Camp Cody substation during the month of November. Crews are finishing up installations at locations north of the headquarters office and will begin installing the new meters at member locations west of the headquarters office as well as portions of Dona Ana and McCan roads. Letters and a map of the area where crews will be working were mailed out to the affected members. A map of the area can be viewed on our website at www.columbusco-op.org.

FALL INTO ENERGY SAVINGS

Contact us for more energy-saving tips!

- Check to see if your home insulation levels are up to par.
- Seal air leaks around doors, windows and electrical outlets.
- When heating your home, set the thermostat to 68 degrees to save energy.
