Distribution Maintenance Work to Begin in Spanish Stirrup Area

Columbus Electric Cooperative, Inc. (CEC) will be contracting WSI Southwest, Inc., a New Mexico electrical contracting service company, to perform maintenance work on a portion of the distribution system served out of the Spanish Stirrup substation in Deming. This includes the areas south of Deming up to the New Frontier and Brazil Road areas. Members in these areas have been experiencing frequent service interruptions. Maintenance work is being performed in an effort to improve the service and reliability.

Work to be performed includes the testing of all poles, inspection of all equipment and connections, tightening of hardware, and replacement of equipment as needed. Work is scheduled to begin on July 13th and will continue for four (4) weeks. Contractor vehicles will be clearly marked.

CEC is committed to making continued investments in the distribution system in order to continue to provide our members with safe, reliable, affordable power for the future.

July 2020 www.columbusco-op.org Vol.32, No.7.

This institution is an equal opportunity provider and employer.

Everyone Must Wear a Face Covering

Covering your face helps prevent
the spread of COVID-19.

Masks, bandanas, scarves, or cloth may be used.

Se pueden usar máscaras, pañuelos, bufandas o telas.

Todos Deben De Usar Una Cobertura Facial

Cubrirse la cara ayuda a prevenir
la propagación de COVID-19.

CEC Wants to Remind You.....

We are happy to assist you when visiting our office. Please know that a face mask is **required** when entering our office and must be worn at all times. Please follow social distancing to protect yourself as well as others.

Thank you for your cooperation!

CEC OFFERS NEW REBATES

OUTDOOR POWER EQUIPMENT REBATE

Columbus Electric Cooperative, Inc., through its power supplier, Tri-State Generation & Transmission Association, is currently offering outdoor power equipment electrification incentives on electric mowers or snow blowers at 25% of cost up to \$100 and electric trimmers, chainsaws, pruners and blowers at 25% of cost up to \$50. Applications are available online at www.columbusco-op.org or at our office located at 900 N. Gold

New Meters Installations Continue

Columbus Electric personnel have completed installing new, automated meters on services that are served out of our Camp Cody, Spanish Stirrup, and Columbus substations in Deming. In the next thirty (30) days technicians will begin installing meters on services in the Animas and surrounding area. Letters and a map of the area where crews will be working will be mailed out to the affected members. A map with the highlighted areas can be found online at www.columbusco-op.org
